

Auditors:

- still welcome to participate by asking questions on slack, optionally submitting homeworks and taking quizzes, office hours also open
- > auditors are not receiving a grade

Lesson learning goals:

- put our skills to the test
 - normalizations
 - PCA
 - tSNE
 - kmeans
 - differential expression
- > they will always give you some result
- > today: mystery solving (with me)

Coming weeks:

- starting 2/21
- starting a new dataset (I won't tell you what it is)
- > up to you to use your data analysis and visualization techniques to figure out what it is
